

DAY 1

Welcome to this beautiful ✨❤ amazing workshop

So let's begin our journey of manifesting our dream life with the help of angels 🙏

Positive angel affirmations can help you to establish clear and open lines of communication with angels who want nothing more than to help you step into your most authentic, high vibrational, fulfilling and joyful life.

Your thoughts, feelings, actions, intentions, and personal vibrational energy all play a key role in what you are manifesting into your life experience.

And so if you want to increase your connection with the angels...

If you want to feel, see, hear, know and receive their loving guidance and support. There are so many things you can do to support the connection.

One such way is through angel affirmations.

**When you write out angel affirmations, they can work to realign your thinking and intention*.*

When you really feel the blessing energy behind the affirmation, you change your vibrational feeling, and actually raise your vibration. So not just writing...

But feeling the affirmations here and now as if they are already true is key to the most powerful experience using angel affirmations...

So, **for next 21 days, you have to affirm daily the affirmation as much possible throughout the day and write 🙌 in a note book for minimum 21 times and maximum as much as feel*...*

Always remember that an affirmation is the modern equivalent of chanting and mantras, and as the name suggests it is a phrase that supports and affirms the person saying them.

**The main goal of affirmation is to break the cycle of negative thinking, and replacing them with positive and empowering thoughts along with divine blessings and guidance of Angelic Realm*..*

Day2

We all know affirmations are positive statements which when said with full faith and believe can change neuro pathways in brain and can manifest the miracles..

It is important to remember that simply reading, listening to, or speaking affirmations is not enough.

In order to make affirmations work for you, there needs to be supportive underlying beliefs that the affirmations can and will come true.

If you feel excited, energized, enthusiastic, and expectant, then your beliefs are in alignment.

*Just remember as you write, or say or listen, feel the excitement, joy, and expectation of each of these being true 🙏 ❤️ 🙏 😊 *

DAY 3

Believing in yourself means having faith in your own capabilities. It means believing that you CAN do something — that it is within your ability.

When you believe in yourself, you can overcome self-doubt and have the confidence to take action and get things done.

Just Believe in yourself, you can achieve anything that you set your mind to.

There are no limits out here, the only limits are those that you impose upon yourself. Dream, believe and take action.

You can definitely do anything you set your mind to, it takes action, it takes perseverance, it takes facing your fears and most likely getting out of your comfort zone but nothing worth having comes easy in life....

So,* I want all of you to feel and believe this while you write 🖋️ today's affirmation 😊*

Day 10

Affirmations are indeed a powerful tool to help you change your mood, state of mind, and manifest the change you desire in your life.

But they work best if you can first identify the unwholesome belief that is opposing them.

I'm sure you've heard the phrase "fake it 'til you make it". Well, positive affirmations are exactly like this!

The more you tell yourself like you are confident and capable, the more you will start to feel confident and capable.

Just associate feelings when you are saying Or writing them.

Let's affirm this today without any doubts 🥰
